DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-31 and 91-99 are, drawn to an integrated circuit, classified in class 257, subclass 500+.
 - II. Claims 55-72 are, drawn to an integrated circuit with a copper metallization layer, classified in class 257, subclass 500+.
 - III. Claims 73-81 are, drawn to an integrated circuit with a nickel metallization layer, classified in class 257, subclass 629.
 - IV. Claims 82-90 are, drawn to an integrated circuit with a palladium metallization layer, classified in class 257, subclass 700+.
2. Claims 21-31 and 55-99 are generic to a plurality of disclosed patentably distinct species comprising various types of metallization layers for forming the second layer of the integrated circuit. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 2818

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. R. Berry whose telephone number is (703) 305-4544.
